## Modern Foreign Languages Policy

**Spring 2019**

**Policy Number: 39**

## **Introduction**

This policy document sets out the school's aims, principles and strategies for the delivery of languages. It will form the basis for the development of languages in the school over the next three years.

## **The rationale for Primary Languages**

The study of languages prepares pupils to participate in a rapidly changing world in which work and other activities are increasingly carried out in languages other than English. Pupils use languages to communicate information responsibly, creatively and with discrimination. They learn how to employ languages to enable rapid access to ideas and experiences from a wide range of people, communities and cultures. Increased capability in the use of languages promotes initiative and independent learning and encourages diversity within society. We interpret the term 'Languages' to include the use of any living language to communicate ideas and receive information."

## **The school's aims for Languages**

The aims and objectives of learning a modern foreign language in Coates Way School are:

- To foster an interest in learning other languages;
- To introduce young children to another language in a way that is enjoyable and fun;
- To make young children aware that language has structure, and that the structure differs from one language to another;
- To help children develop their awareness of cultural differences in other countries;
- To develop their speaking and listening skills;
- To lay the foundations for future study.

## **Curriculum**

It is currently a statutory requirement for children at Key Stage 2 to learn a Modern Foreign Language and this became statutory in September 2014. Coates Way Primary School has chosen to deliver Spanish as its Modern Foreign Language, as it is widely spoken throughout the world, with 22 countries who have Spanish as their main language.

In line with framework guidelines, pupils learn languages for no less than 60 minutes per week. This time allocation is made up of a combination of dedicated language lessons, teaching language through other subject areas and using language for real purposes in daily classroom routines. The pupils' exposure to languages is further supported by the school's linguistically and culturally diverse display policy.

### **Curriculum Management**

The Subject Leader will facilitate the use of Languages in the following ways:

- By updating the policy and scheme of work;
- By ordering/updating resources;
- By providing CPD so that all staff are confident in how to teach the subject and have sufficient subject knowledge;
- By keeping staff abreast of new developments;
- By taking an overview of whole school planning to ensure that opportunities occur for pupils to develop Languages capability and that progression is taking place;
- By supporting staff in developing pupils' capability;
- By attending appropriate courses to update knowledge of current developments
- By management of native speakers, if available.

### **Approaches to language teaching**

The school believes that pupils learn more effectively if they are enjoying what they are doing. ICT is used across the school to motivate pupils and to support teachers with model pronunciation. The school uses community and other links to expose pupils to native speakers as well as ICT. The school endorses the framework's five principles to develop a distinctively primary approach to language learning:

- Provide a rich and varied input of the language, so that children hear and interact with the sounds and patterns of the new language
- Use active learning to engage motivation
- Use games and songs to maximise enjoyment
- Embed languages in class routines and school life
- Integrate language learning across the curriculum to connect with learning in other subject areas

### **Embedding MFL in the curriculum**

The school believes pupils will learn languages more effectively by having frequent exposure to them. As staff become more aware of language teaching methodology, languages will be increasingly embedded in the curriculum. The primary Languages coordinator will highlight opportunities in medium term planning and provide the necessary resources. Opportunities for speaking another language should be exploited, be it in the playground or in the classroom. All staff in the school are responsible for ensuring this.

### **Recording, assessment and reporting**

As the class teacher works through the scheme of work they will record progress against the short-focused topics where appropriate and assess the children's progress in the integrated language. This assessment will be used to support teaching and learning.

Some evidence is to be kept. This may include a description of the context and an explanation of how the pupils completed the topic, photographs, discussion, saved work and printouts (if any were produced) of differing pupils' work. This will be known as a Portfolio of Exemplar Assessments and will accompany the children throughout their time at the school. Languages work will be marked in line with the school policy on marking.

### **Inclusion**

All pupils, regardless of race or gender, shall have the opportunity to develop languages capability. The school will promote equal opportunities and fairness of distribution of languages resources. Children with other languages at home are encouraged to use them for educational benefit and parents are offered advice about what is appropriate.

Efforts are made to ensure that work created at home can be transferred to a classroom once a teacher has been notified. The school will monitor the level of access to languages in the home environment to ensure no pupils are unduly disadvantaged. In all classes there are children of differing physical ability. Whilst recognising this fact, we provide suitable learning opportunities for all children by matching the challenge of the task to the ability of the child. Positive images of languages being spoken by people of both sexes will be promoted. The school recognises the motivational advantages of the use of languages by children with special educational needs.

### **Resources and Accommodation**

A variety of resources are available in school. These include children's reference books, teachers' resources, books, posters and activity books. Resources are stored in the MFL cupboard and are available to all year groups.

Each classroom will have a Spanish/English dictionary, labels for most classroom objects and posters/calendars detailing the days of the week and months of the year.

The MFL co-ordinator is responsible for maintaining resources, monitoring their use and organising storage. Resource purchasing is in accordance with normal school procedures and is based upon the MFL budget.

### **Monitoring and review**

Monitoring is carried out by the SLT and the subject leader for languages, in the following ways:

- Informal discussion with staff and pupils
- Observation of languages displays
- Collection of class languages files
- Looking at the work in their individual paper files or notebooks
- Classroom observation

There is an annual review of this policy by the subject leader for languages. A major review involving all staff will take place every two years.

Review Date: Spring 2021
